CAREER OBJECTIVE

As a skilled web developer proficient in HTML, CSS, Bootstrap, JavaScript, React, Node.js, Python, and Django. Seeking a challenging position where I can leverage my full-stack development skills to create dynamic, responsive, and user-friendly web applications. Dedicated to continuous learning and passionate about contributing to innovative projects in a collaborative environment.

Key Skills:

- Proficient in HTML, CSS, and Bootstrap for building responsive and visually appealing websites.
- Strong experience with JavaScript and React for creating dynamic and interactive user interfaces.
- Knowledge of modern front-end development practices and tools.
- Skilled in Node.js for developing scalable server-side applications.
- Expertise in Python and Django for building robust and secure web applications.
- Familiarity with RESTful API development and integration.
- Strong analytical skills with the ability to identify and resolve complex technical issues.
- Effective team player with strong communication skills, capable of working in cross-functional teams.
- Passionate about staying updated with the latest industry trends and technologies.
- Commitment to improving technical skills through continuous education and hands-on projects.
